

**The Fireman's Journal**  
AND MILITARY GAZETTE.  
MARCUS D. BOERUCK, Editor.  
SAN FRANCISCO  
SATURDAY MORNING, OCT. 24. 1856

**THE FIREMAN'S JOURNAL**

AND MILITARY GAZETTE.

IS PUBLISHED EVERY SATURDAY MORNING.  
At No. 72 Merchant Street, opposite  
It will be regularly served to subscribers in San  
Francisco every Saturday morning at an early  
hour, for FIFTY CENTS per month, payable to the  
carriers.

Subscribers will be furnished by mail for five dol-  
lars a year, payable in advance. Two copies  
sent to one address for eight dollars.

In the city who wish the paper left at  
their residences, will be served on leaving their  
names at the publication office.

Advertisements and advertising notices inserted  
in New York prices.

The FIREMAN'S JOURNAL is for sale on the day of  
its publication, and for a week thereafter, by  
J. W. Sullivan, Washington street, near Post  
Office.

M. Ulman & Co., Post Office Arcade,  
Geo. H. Leeland & Co., Post Office Arcade,  
Doran & Merriam, 175 Clay street

The lying jade, Rumor, has been very busy in  
circulating a report to the effect, that this paper  
intended to display at the head of its leading  
column, the name of the candidate which it intended  
to support for the Chief Engineering. We  
distinctly stated when we established this paper,  
that we would not interfere with the politics of the  
Department; unless we had proof positive, that a  
man, who would reflect disgrace upon the organization  
had a prospect of being elected to fill the  
highest position in the gift of the Firemen. Of  
the candidates now in nomination, we have nothing  
at present to say; we may have before the day of  
election, and whatever sentiments we may utter,  
they will be given to the world, without taking into  
consideration the position of friend or foe.

Pledges and expression of opinion are the  
order of the day; we call upon the firemen, as a united  
body, to scratch from their party tickets, at the  
coming election, in November, the name of every man,  
nominated for the Senate and Assembly, who  
will not pledge himself unqualifiedly to use his best  
endeavors, to be chosen for an attained, a great stride  
towards the permanency of the Department will  
have been made. There will not be that laxity  
to enforce the extreme provisions of the Laws of  
the Department which at times has existed. A  
healthier tone will pervade the entire association.  
Men, who will aspire to those positions for  
the honor they confer, will be those in whom every  
confidence can be placed—men who will be en-  
dowed to represent the Fire Department, under all  
and every phase of its existence. The members  
of the Department will be compelled to pay a more  
implicit obedience, and a greater amount of respect  
to those in command, as then will not be that  
fear of opposition which exists now—which is  
always brought to bear, when an Assistant Engi-  
neer is compelled to carry out an order, which  
he sees an engine light-handed, assist in getting  
her to a fire, without having the fear of favoritism  
being imputed to him, and being demolished there-  
for at the succeeding election. There will not be that  
public school of our city, and will forever be  
the great bulwark of her safety, those as-  
sembling within their walls forming a cordon,  
which no power on earth can sever; and, therefore,  
do not simply for the purpose of allowing a  
demagogue to make a little popularity, take one  
dollar away from the support of the schools,  
which may be at all necessary to carry out those  
great results for which they were established.

The Firemen of this city compose the best organ-  
ized Fire Department in the world. Their system more  
perfect; their local laws more complete; their effi-  
ciency more remarkable; their conduct more  
commendable; and their love for the people whom  
they serve, more sincere than any similar organiza-  
tion.

Notwithstanding the Department has been  
brought to so enviable a position through the ex-  
actions of its members; yet we find unscrupulous  
and depraved politicians throwing every obstacle in  
the way of its future prosperity. For months past the  
hard working portion of the Department has  
been taxed most heavily for the expenses of the  
organization, and yet the services of the members are  
rendered freely and gratuitously. At times we  
think it would be much better, for the Firemen  
to dissolve their present organization, so as to give  
its arch enemy the "Consolidation Bill" an oppor-  
tunity to test the difference (economically) between a  
paid and volunteer Fire Department. We are of  
the opinion that the former could be easily supported  
upon \$10,000 per annum, and the latter \$30,000.  
The difference is considerable, it is true; but what matters an hundred thousand dollars to  
the taxpayers of the City and County of San Fran-  
cisco, to allow Hypocrite Hawes to elucidate "a  
wrinkle" in practical economy. We did say that  
we would not notice the author of the Consolidation  
Bill, publicly again, but the success of the Fire  
Department is paramount to every other considera-  
tion, and although the subject is a sickening one,  
Hypocrite Hawes must be shamed in his true  
character, as an enemy to the Firemen. If we  
do him wrong, let him come out in his own  
organ the *Globe*, and defend himself from our im-  
putations. What say you gentlemen Candidates  
for the Senate and Assembly. Republicans, Amer-  
icans and Democrats, will the Firemen receive any  
consideration at your hands, if elected to the posi-  
tions to which you aspire?

FILLING CISTERNS.—There is now due Captain  
Cowing the contractor for filling cisterns, a sum  
amounting to \$1471.25. Captain C. has since the  
passage of that monstrous, the Consolidation Bill,  
been filling the cisterns under the supposition that  
his contract was a valid one, but he understood from  
outside parties, (for we never could understand the  
bill alluded to,) that it provisions forbid the pay-  
ment of any indebtedness similar to that held by  
Captain Cowing. The Firemen by making all sorts  
of shifts have been enabled to get along without  
the purchase of new hose, but with all their invinc-  
ibility we defy them to put out fire without water.  
Hypocrite Hawes may be able to suggest a remedy,  
for instance "allow fire to burn, until they sub-  
due themselves," and by that means the expense of  
engine, hose, and water will be saved.

CANDIDATES FOR THE NEW BOARD.—For Pres-  
ident Richard H. Sinton, of Monumental Engine  
Co. No. 8, and Franklin L. Jones of Pennsylvania  
Fire Co. No. 12, the present incumbent. For  
Secretary J. Whalen, of Young America Engine  
Co. No. 10, and Jacob Ezekiel of St. Francis H. & I.  
Co. No. 1. For Treasurer Henry A. Cobb, of  
Lafayette H. & I. Co. No. 2, the present incum-  
bent.

UNSAFE BUILDINGS.—The Town Clerk of the  
contained a well written article on the reckless  
manner which characterizes the erection of brick  
buildings in this city, and called particular notice to  
the structure at the corner of Dupont and Commer-  
cial streets. As the architect intends publishing a  
statement on the subject, we defer any remarks of  
our own, until we see the statement in question.

PROPOSAL.—Have been advertised for, to con-  
struct a cistern, at the corner of Second and Mel-  
lin street; to hold 30,000 gallons of water. The  
cisterns to be built in the seventh ward, should be  
finished without delay; otherwise the rains will  
greatly interfere with the progress of the work.

RELAX ASSOCIATION.—The members of this  
company had weekly meetings, so as to render  
their organization perfect, upon the arrival of their  
new and spindly apparatus presented to them by  
Mr. Samuel Brannan.

**The City Hall Belfry.**

The attention of the Chief Engineer and the  
Fire and Water Committee of the Board of Supervisors  
is called to the miserable and dangerous  
condition of the Belfry on the City Hall, which is  
not only a disgrace to any community, but a criminal  
neglect on the part of those who should endeavor  
to remedy the matter. The rainy season is near  
at hand, when through its dark and stormy nights  
an abode in that wretched place will be worse than  
imprisonment. So small is the lookout, that there  
is not sufficient space for a decent sized stove, to  
keep life in the persons who serve as faithful guardians  
of the night, and so unsafe is it that the slightest breeze  
causes it to totter from side to side. In that infamous imposition upon the Fire  
Department, the Consolidation Bill, eight thousand  
dollars per annum is allowed the organization for  
its incidental expenses, and for extinguishment of  
fires. The prompt alarm, is as a matter of course  
the first act toward the subduing of a conflagration.  
The timely warning of the bell to the sleeping  
fireman, is first in importance when the red glare  
lights up the horizon; for on his promptitude,  
energy and perseverance, life and property de-  
pends. It is, therefore, necessary that the proper  
steps should be immediately taken to improve the  
condition of the locality we speak of, otherwise it  
will be an utter impossibility to procure the services  
of any person as Bell Ringer, unless his life is insured.  
We hope the Board of Supervisors will look well into this matter, and endeavor to procure the service of men or women of education  
and refinement to fill those positions.

**The Judiciary Committee.**

We are in the hope that the Judiciary Committee  
of the Board of Delegates will report in favor  
of abolishing the salaries of Assistant Engineers of  
the Fire Department when that consummation so  
devoutly to be wished for is attained, a great stride  
towards the permanency of the Department will  
have been made. There will not be that laxity  
to enforce the extreme provisions of the Laws of  
the Department which at times has existed. A  
healthier tone will pervade the entire associa-  
tion. Men, who will aspire to those positions for  
the honor they confer, will be those in whom every  
confidence can be placed—men who will be en-  
dowed to represent the Fire Department, under all  
and every phase of its existence. The members  
of the Department will be compelled to pay a more  
implicit obedience, and a greater amount of respect  
to those in command, as then will not be that  
fear of opposition which exists now—which is  
always brought to bear, when an Assistant Engi-  
neer is compelled to carry out an order, which  
he sees an engine light-handed, assist in getting  
her to a fire, without having the fear of favoritism  
being imputed to him, and being demolished there-  
for at the succeeding election. There will not be that  
public school of our city, and will forever be  
the great bulwark of her safety, those as-  
sembling within their walls forming a cordon,  
which no power on earth can sever; and, therefore,  
do not simply for the purpose of allowing a  
demagogue to make a little popularity, take one  
dollar away from the support of the schools,  
which may be at all necessary to carry out those  
great results for which they were established.

**The Polls.**

We observe that in designating the places for  
holding the polls on the ensuing election day, the  
St. Francis Hook and Ladder house, on Dupont  
street, has been named for the voters of 6th Ward.  
Individually, we are opposed to such an arrange-  
ment. There are other places besides Engine and  
Truck House for such affairs. The counting of the  
votes on the present occasion will consume at least  
one week to perform the work properly; and in the  
meantime we should like to know where the St.  
Francis Company intend to house their Truck, or  
whether they intend to go out of service for the  
period mentioned. The subject is an important one,  
much more so than appears at first blush.

**FUNERAL.**—The funeral of A. W. Randall, mem-  
ber of Howard Engine Company No. 3, was served on Sunday.  
A. W. Randall, two children, Mrs. John Northrup and only  
son, a bright boy, and Mrs. John of this world's noble  
women, Mr. C. Harriet, his two children, and nurse  
and George Ebbets, son of Edward A. Ebbets, of Stamford.  
The party were returning from their excursion, when  
within three quarters of a mile from the shore the boat was struck by a flaw,  
which caused her to jibe and upset, turning bottom up immediately, and those who were revolving in  
the excess of happiness a moment before, found  
themselves wading with the waves and tide. From  
the man who first reached them we learn the youth  
Ebbets tore off his clothes, climbed on the boat's  
bottom, and waded his coat as a signal for help  
from the shore; when the first boat reached the  
melancholy scene she swamped and became helpless.  
Then young Ebbets, seeing the horror and agony  
aroused him, dove from the boat, and by his self-control and noble exertions to the little ones  
about him, he gave much succor; indeed, was the  
saviour of three of their lives, and had his strength  
equal to his will will have rescued the lost ones from a watery grave. As it is, we have  
to mourn over the loss of six of the party.

**RACES.**—At the Benefit to John Smith, of the  
Pioneer Circus, on Thursday evening, a foot race  
took place between several members of the  
Fire Department, for a silver trumpet, with the  
following result:

Twenty-one times around the ring—a little less  
than half a mile—and the prize a beautiful silver  
trumpet, valued at \$120, which was won by Mr.  
Thomas, of Pacific Engine Company No. 8, who made  
the time was 2 m 22 sec. The second best  
time was 2 m 35 s., by a member of No. 9, and the  
slowest, 2 m. 46 s. The contest was viewed  
with a great deal of satisfaction.

**KILLED.**—Charles Gordon, a member of Young  
American Engine Company No. 13, was killed at  
Granada, Nicaragua, prior to the sailing of the last  
vessel, by a young man named Jenning Estelle.  
Mr. G. was for a long time a member of No. 13, and was  
very much esteemed. His sudden death is deeply  
regretted by his friends here. On Monday last,  
the flags of the various Engine and Truck  
Houses were at half-mast, in respect to his  
memory.

**VOTING BOLES.**—We are requested to announce  
that the Secretary of the Fire Department, intends  
making up the voting roles for the next election, on  
the 8th November, immediately after the regular  
meetings of the various companies have been held.  
Secretaries are therefore requested to call  
upon the Secretary of the Fire department, and ob-  
tain the proper blanks for making out their returns.  
The correctness of which returns must be sworn  
to in every case by the Foreman and Secretary of  
each company.

**FIREMAN'S MUSTER.**—A Fireman's Muster is  
contemplated to take place in this city, on the 4th  
May next. We should like to hear from Stockton,  
Benicia, Sacramento and Marysville, whether they  
will be present. The architect intends publishing a  
statement on the subject, we defer any remarks of  
our own, until we see the statement in question.

**ANNUAL ELECTION.**—The annual election for  
officers of Vigilant Engine Co. No. 9, takes place on  
Monday evening next. The attendance of every  
member is desired.

**DEPARTURE.**—Samuel Figel, an old Californian, a  
member of the well known firm of Figel & Brother,  
left with his family on a visit to the Atlantic states.  
Mr. F. is a modest and unassuming youth, who has  
much to advance the interests of the city, by the  
liberality which he has displayed to all classes and  
societies.

**PROPOSAL.**—Have been advertised for, to con-  
struct a cistern, at the corner of Second and Mel-  
lin street; to hold 30,000 gallons of water. The  
cisterns to be built in the seventh ward, should be  
finished without delay; otherwise the rains will  
greatly interfere with the progress of the work.

**RELAX ASSOCIATION.**—The members of this  
company had weekly meetings, so as to render  
their organization perfect, upon the arrival of their  
new and spindly apparatus presented to them by  
Mr. Samuel Brannan.

**Economy**

is a capital thing, provided, in its practical effects,  
it does not become injurious to the cause to which  
it is sought to be applied. In some things, extra-  
vagance, even to waste, should be countenanced,  
if in the result, good is to be attained. The City  
and County of San Francisco has two organizations  
of which it may well be proud. We refer to the  
Public Schools and the Fire Department. For all  
the vast expenditures of money since the formation  
of the City, the only perceptible benefit that now  
remains, reposes in the usefulness of the Schools  
and the efficiency of the Firemen. Notwithstanding  
all this however, there appears to be a studied effort  
to crush those two organizations by adopting  
a pretended connection with the Press. We  
hold the same opinion now, as we always have,  
in regard to the subject, and believe that we are right.  
Let all who frequent public places of amusement  
pay their admission fee; and if editors and pro-  
prietors of newspapers be of the number let them  
pay also; and if the management of such establish-  
ments require a notice of their performances,  
let them pay so much per square for the same,  
and then there will be no obligation resting upon  
either party.

Managers are very much to blame for many of the  
impositions practiced upon them—their subordinates  
have not the moral courage to refuse the forfeit  
as entitles to their respective houses. The impres-  
sion entertained by many that the newspapers  
fraternize with the theaters is a matter of course.  
The managers of the theaters are drawn from all grades,  
classes and conditions of the community, and the  
Firemen are compelled to bear the burthen of the  
complaint which such a system engenders. If for  
the purpose of adding popularity to a theatre or elsewhere,  
this "Free System"—which we are opposed to  
on principle—is necessary, prepare a list of such  
as are entitled to the ingress of the theatre and  
publish it, and then there will be some method of  
arriving at a definite conclusion as to "who is in  
whom" in connection with the Press—at any rate.

AT THE CIRCUS.—Manhattan Engine Company  
No. 2, and Lafayette Hook and Ladder Company  
No. 2, attended the Circus on Thursday evening  
with full ranks. The former in uniform, and the  
latter in citizens' dress, with badges. The "Man-  
hattan" preceded by a fine band of music, escort-  
ed the "Lafayette" to the Circus, and at the close  
of the performances escorted them to their truck  
house, where a fine entertainment was prepared  
for them, to which ample justice was done. Toasts  
and sentiments were given and responded to, and  
the whole affair passed off with a great deal of good  
feeling.

METROPOLITAN THEATRE.—Miss Julia Dean  
Hayne reappeared at the Metropolitan on Monday  
evening last, greeted by one of the most splendid  
audiences we have seen since her last engagement.  
The play was *Evadne*, and Mrs. Hayne  
gave new life to the character. She performed  
with much more energy than before, and appeared  
to enter more into the spirit of her impersonation.  
During the week she has successfully appeared as  
"Juliet," "Pauline" and "Julia," and "Parthenia"  
each night to full and fashionable houses; just  
such houses as brilliant talents and unblemished  
reputation are sure to attract. When the perfect  
lady is combined with the true actress, success  
is by no means problematical.

METROPOLITAN THEATRE.—Miss Julia Dean  
Hayne reappeared at the Metropolitan on Monday

each night to full and fashionable houses; just  
such houses as brilliant talents and unblemished  
reputation are sure to attract. When the perfect  
lady is combined with the true actress, success  
is by no means problematical.

SCHOOL EXHIBITION.—We last evening attended  
the school exhibition of the Rincon Point school,  
under the direction of Mr. Swett. The late hour  
at which our engagements permitted us to visit the  
entertainment, precluded an extended notice.  
The exercises appeared to be of a somewhat higher  
order than the usual school exhibitions, and the  
scholars evinced great proficiency. A large number  
of ladies and gentlemen were in attendance, and  
appeared to be highly gratified with the exercises  
of the children.

PROSPEROUS.—The first light Dragoons now number  
Ninety-five members, and they are constantly  
receiving accessions to their ranks. The company at  
their last meeting purchased seventy-five sabres  
at an expense of \$711.50. The sabres are very elegant  
and complete. 1st Lieut. A. McDowell, has  
now the command of the Dragoons. Another one of  
those delightful soirees given by the company  
will shortly take place.

TALL WALKING.—James Kenyon is now un-  
dergoing the task of walking 106 consecutive  
hours, without sleep or rest, at the Albion, corner  
of Kearny and Merchant streets, on a plank 23 feet  
long and about 2 feet in width. The walk will be  
finished to-night, and exhibit great powers of  
endurance.

ALARMS AND FIRES FOR THE WEEK.

Oct. 24, 4 P. M. Alarm from Monumental  
Bell. Chimney in Bakery on Ohio street, between  
Broadway and Pacific streets. No damage done,  
Extinguished without the aid of the Fire Department  
—a portion of which was out.

J. W. TUCKER.—This gentleman has lately re-  
ceived invoices of new and splendid silver  
trinkets from his establishment. Tucker  
intends having the same delivered to him  
as soon as possible.

BELL RINGERS.—In answer to repeated inqui-  
ries on the subject, we again state that the election  
for Bell Ringers on the City Hall Bell, does not  
take place until the regular meeting of the Board  
of Delegates in December.

SECRETARIES.—The Secretaries of the various  
companies in the Department are requested to  
send in the credentials of their delegates to the  
Secretary of the Department without delay.

THE OUTSIDE.—On the outside may be found the  
second chapter of the story now being written for  
this paper by Edward Pollock.

SAN FRANCISCO MINSTER.—During the time  
the alterations are going on at the San Francisco  
Hall, the minstrels intend travelling throughout  
the State, giving concerts.

NEW PAPER.—We have received the first num-  
ber of another new paper, the *Daily Monitor*, a  
journal devoted to the political fortunes of Fillmore  
and Donelson.

LICORNE.—W. Carroll, who has become some-  
what celebrated in the "newspaper world," delivers  
a lecture on to-morrow (Sunday) evening, at Mus-  
ical Hall. The subject, "

J. M. STROBRIDGE.

**Northern Assurance Company,  
Established in 1836.  
INCORPORATED BY ACT OF PARLIAMENT  
CAPITAL.....£1,350,760**

HEAD OFFICES:  
LONDON, ABERDEEN, BELFAST, EDINBURGH, GLASGOW, and DUBLIN.

**THE 60th ANNUAL MEETING OF THIS  
Company was held on the 18th instant, when the following results of the business for the year ending the 31st of January last, were submitted to the proprietors and policy-holders:**

Fire Department.

Premiums for all losses and expenses, and provision for all outstanding claims, left the credit of profit and net balance of £2,000.

Life Department.

Pensions of £50. New Policies issued during the year.....£8,680 00 00

Renewal Premiums and Interest.....£33,498 71 11

Total revenue during the year.....£62,64 71 11

Number of Policies issued, 3834 for capital sums amounting to.....£1,533 80

Finance.

Amount of invested funds, upwards of.....£300,000

Revenue from all sources above.....£140,000

Estimation of Premiums.

The Committee, during this year completed the fourth quinquennial period of its existence, the Directors after a careful investigation into the Life Department, resolved to recommend, from the profits made in the five years, a sum presented to the Life Department, equal to the proportion of the participating class, of £1 7s 6d per annum on all policies except those on the list of January last; and although from time to time the Committee have recommended a sum, it has appeared that a considerably higher sum might have been declared, the meetings resolved to adopt the recommendation of the Directors, and to increase the sum of £1 7s 6d per annum on all policies except those on the list of January last.

Dividend.

At the same time the shareholders having recommended that the Dividend on the shares for the year past be increased to 10 per cent, on the paid up capital, the same was adopted accordingly.

Progress of the Company During the Past Five Years.

Fire Department. Life Department.

**CORNS, BUNIONS, NAILS, &c.**

The Subscribers offers his services to the public as an operator of Exercisers, such as HARD and SOFT EXERCISERS, SWEDISH EXERCISERS, SWEDISH PENS, TREATING THE FLESH, &amp;c.

Operations performed in five minutes, without pain or shock, so that the patient may be immediately sent home, without the least inconvenience to the patient. He has devoted much time and thought to the subject, and believes that patients will be greatly relieved by his operations. His practice has been in the medical profession for fifteen years, and he has been in contact with all who may be considered experts, and still gives and satisfies his patients.

Dr. SAMUEL BROWN will attend ladies or gentlemen at their residence. Patients will be happy to attend him, as he is a man of great tact and skill, and his skill, indeed, compared with the relief and satisfaction he affords the sufferer.

Dr. BROWN is especially fitted to the practice of Surgery, and has been well acquainted with the science of Chiropractic, and his method of operating. Also, to many citizens of this city, among which are U. S. Grant, Gen. W. T. Sherman, Gen. M. C. Butler, Dr. D. Broderick, Dr. R. P. Ashe, Navy Agent, and many others.

My certificate will be given to any citizen of this city, or of any of the most eminent men in the United States, to open to all who may think proper to examine the same.

Dr. BROWN is a member of the San Francisco Chiropractic Society.

145 Montgomery street, up stairs.

myself.

**\$100 REWARD**

Will be paid to any person, who will procure for me, the name and address of the man, who, in the month of October, 1855, sold to me, at the corner of Commercial and Sacramento streets, opposite the Post Office, a leather article, which he

was selling, indeed, compared with the relief and satisfaction he affords the sufferer.

Dr. BROWN is especially fitted to the practice of Surgery, and has been well acquainted with the science of Chiropractic, and his method of operating. Also, to many citizens of this city, among which are U. S. Grant, Gen. W. T. Sherman, Gen. M. C. Butler, Dr. D. Broderick, Dr. R. P. Ashe, Navy Agent, and many others.
